Anexia affirms location of headquarter in Klagenfurt

International cloud service provider safeguards jobs and assures the local value added.

Klagenfurt, 06/24/2021: The internationally active Carinthian provider of cloud services and software solutions Anexia will continue offering its services from its headquarter location in Klagenfurt to more than 70 countries in the world. Due to the immense growth of the organization in the last years, several options for development and extension in Klagenfurt are being evaluated at the moment.

„In the current planning phase, we are working on several concepts and fathom different options. In any case, it is certain that our headquarters will remain in Klagenfurt. The demand for our services is growing steadily and so we are pleased to continue expanding our staff. In order to adapt to this growth we are looking for new facility options", explains Alexander Windbichler, CEO and founder of Anexia. Details on new employments, locations or data centers cannot be given at this time. Talks with stakeholders will be held in the coming months.

About Anexia
Anexia was founded in 2006 by Alexander Windbichler in Klagenfurt, Austria. The service provider offers high-quality and individual solutions in the field of cloud and managed hosting as well as individual software and app development. At the same time, Anexia also operates its own independent data centers. With more than 300 employees in more than ten offices in Europe and the USA, Anexia has almost 100 international server locations and serves around 100,000 active customers.
