## Christian Inzko as new COO at Anexia

---

IT manager Christian Inzko became the COO of Anexia in June 2016 and thus assumed operational management of the areas of infrastructure, system operations, software development and marketing.

**Klagenfurt, June 27, 2016** – Christian Inzko has been the new COO at Anexia since June 1, 2016.

Inzko, a computer and communication science graduate, is responsible in this role for the areas of infrastructure, system operations, software development and marketing. Before this, the Carinthian worked for over ten years as the department manager at the Raiffeisen computer center, where he was responsible for IT B2B and developed extensive IT projects, serving customers from industry, trade, insurance and the public sector. From 1999 to 2005, the father of two was the managing director of Sparte Information and Consulting and the Software Internet Cluster of the Chamber of Commerce of Carinthia. Furthermore, Inzko is a lecturer at the University of Klagenfurt as well as chairman of the board of examiners for final examinations in the field of computer science, information technology and media design. The IT manager's hobbies include sailing, travelling and kickboxing.

"I look forward to the new challenges. I am especially excited at Anexia for the opportunity to contribute to the organization of such an innovative and dynamic company on its journey into a great future," says the new Anexia COO, Christian Inzko. "It is fantastic that we can welcome such an experienced and capable manager as Christian Inzko into our management team," comments Alexander Windbichler on the start of the new Anexia COO.

### **About Anexia:**

Anexia was founded by Alexander Windbichler in Klagenfurt, Austria in 2006. The IT service provider offers high-quality and individual solutions in the area of cloud and management hosting as well as customized software and app development. At the same time, Anexia also operates its own independent computer centers. With more than 110 employees in 9 branch offices in Europe and the USA, Anexia has over 70 international server locations and provides services for around 10,000 active customers.
